DETAILED ACTION

Double Patenting

Claims 1-9 stand provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-49 of copending Application No. 10/294,205 in view of Yadav of record for reasons of record.

This is a provisional obviousness-type double patenting rejection.

Response to Arguments

Applicant's arguments filed 12/28/05 have been fully considered but they are not persuasive.

Applicants argue that since the present application is a CIP of the copending application and is therefore not prior art. Accordingly, the rejection should be withdrawn.

The obviousness type double patenting is not a rejection based upon prior art, rather it is a judicially created doctrine grounded in public policy. The policy prevents the unjustified and improper extension of the patent and to prevent possible harassment by multiple assignees. The fact that the present application is a continuation of the copending application does not prevent the possible

harassment of multiple assignees, if the present invention is assigned to another assignee.

Therefore, the claims stand rejected.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
